

Supplier Code of Conduct

Endo International plc and its subsidiaries (collectively “Endo”) are committed to the highest standards of ethical and social responsibility in all activities, and recognize suppliers play a key role in the ongoing success and sustainability of Endo.

Endo’s Supplier Code of Conduct defines the principles and expectations of its suppliers. All suppliers working with or on behalf of Endo are expected to share our commitment to operate in an ethical, social and environmentally responsible manner by abiding by the Pharmaceutical Supply Chain Initiative (PSCI) guidelines, which serve as the foundation for Endo’s Supplier Code of Conduct.

Endo intends to evaluate suppliers’ fulfillment of the principles contained herein, and expects suppliers to cooperate, including remediating identified issues. Endo will collaborate with suppliers committed to improving conditions or issues identified with the goal of managing risks and creating long-term, sustainable value.

Ethics

Suppliers shall conduct their business ethically and act with integrity. The Ethics elements include:

ANTI-BRIBERY AND CORRUPTION

All forms of bribery, corruption*, extortion and embezzlement are prohibited. Suppliers shall not pay or accept bribes or participate in other illegal inducements in business or government relationships, or through the use of intermediaries. Suppliers shall have adequate systems in place to prevent bribery and comply with applicable laws.

ANTI-COUNTERFEITING

Suppliers must immediately notify Endo if they are offered the opportunity to purchase counterfeit, illegally diverted or stolen Endo products, or otherwise become aware of any such products.

FAIR COMPETITION

Suppliers shall conduct their business consistent with fair and vigorous competition and in compliance with all applicable anti-trust laws. Suppliers shall employ fair business practices including accurate and truthful advertising.

ANIMAL WELFARE

Animals shall be treated humanely with pain and stress minimized. Animal testing should be performed after consideration to replace animals, to reduce the numbers of animals used, or to refine procedures to minimize distress. Alternatives should be used wherever these are scientifically valid and acceptable to regulators.

DATA PRIVACY AND SECURITY

Suppliers shall safeguard and make only proper use of confidential information to protect the privacy rights of the company, worker, patient, subject,* and donor.* Suppliers shall comply with applicable privacy and data protection laws to protect the security and lawful use of personal data.

PATIENT SAFETY AND ACCESS TO INFORMATION

Suppliers shall have adequate management systems in place to minimize the risk of adversely impacting the rights of patients, subjects and donors, including their rights to health and to access information directly.

CONFLICTS OF INTEREST

Suppliers shall take reasonable care to avoid and manage conflicts of interest. Suppliers are expected to notify all affected parties if an actual or potential conflict of interest arises.

INTELLECTUAL PROPERTY AND CONFIDENTIAL INFORMATION

During the course of any engagement with Endo, suppliers may receive certain non-public, sensitive or proprietary information that is confidential, including but not limited to business interests, technical information, clinical data, product specifications, product development plans and ideas, marketing plans and ideas, manufacturing information or

business operations. Suppliers shall not share our confidential information, intellectual property or any other information they acquire with respect to us or our business. Suppliers must immediately report unauthorized use, disclosure or loss of our confidential information, whether inadvertent or not.

DIVERSITY AND INCLUSION

Suppliers shall engage socially and economically different categories of suppliers through inclusive sourcing processes that promote equal opportunities.

*The term “corruption” refers to the abuse of entrusted power for private gain, the term “subject” refers to any person who participates as a subject in scientific and medical experimentation or product testing, and the term “donor” refers to any person who donates tissues, cells, organs and any other body parts for research purposes.

Human Rights and Labor

Suppliers shall be committed to uphold the human and employment rights of workers and to treat them with dignity and respect. The Labor elements include:

FREELY CHOSEN EMPLOYMENT

Suppliers shall not use forced, bonded or indentured labor or involuntary prison labor. No worker shall pay for a job or be denied freedom of movement.

CHILD LABOR AND YOUNG WORKERS

Suppliers shall not use child labor. The employment of young workers below the age of 18 shall only occur in non-hazardous work and when young workers are above a country’s legal age for employment or the age established for completing compulsory education.

NON-DISCRIMINATION

Suppliers shall provide a workplace free from discrimination. There shall be no discrimination for reasons such as race, color, age, pregnancy, gender, sexual orientation, ethnicity, disability, religion, political affiliation, union membership or marital status.

FAIR TREATMENT

Suppliers shall provide a workplace free of harassment, harsh and inhumane treatment, including any sexual harassment, sexual abuse, corporal punishment, mental or physical coercion or verbal abuse of workers and no threat of any such treatment.

WAGES, BENEFITS AND WORKING HOURS

Suppliers shall pay workers according to applicable wage laws, including minimum wages, overtime hours and mandated benefits. Suppliers shall communicate with the worker the basis on which they are being compensated in a timely manner. Suppliers are also expected to communicate with the worker whether overtime is required and the wages to be paid for such overtime. Overtime shall consistent with applicable national and international standards.

FREEDOM OF ASSOCIATION

Open communication and direct engagement with workers to resolve workplace and compensation issues is encouraged. Suppliers shall respect the rights of workers, as set forth in local laws, to associate freely, join or not join labor unions, seek representation and join workers’ councils. Workers shall be able to communicate openly with management regarding working conditions without threat of reprisal, intimidation or harassment.

Health and Safety

Suppliers shall provide a safe and healthy working environment, including - where applicable - for any company-provided living quarters. Health and Safety measures shall extend to contractors and subcontractors on supplier sites. The Health and Safety elements include:

WORKER PROTECTION

Suppliers shall protect workers from over exposure to chemical, biological, physical hazards and physically demanding tasks in the workplace and in any company provided living quarters. Suppliers shall provide appropriate housekeeping and give workers access to potable water.

PROCESS SAFETY

Suppliers shall have management processes in place to identify the risks from chemical and biological processes and to prevent or respond to catastrophic release of chemical or biological agents.

EMERGENCY PREPAREDNESS AND RESPONSE

Suppliers shall identify and assess emergency situations in the workplace and any company provided living quarters, and minimize their impact by implementing emergency plans and response procedures.

HAZARD INFORMATION

Safety information relating to hazardous materials - including pharmaceutical compounds and pharmaceutical intermediate materials - shall be available to educate, train, and protect workers from hazards.

Environment

Suppliers shall operate in an environmentally responsible and efficient manner to minimize adverse impacts on the environment. Suppliers are encouraged to conserve natural resources, to avoid the use of hazardous materials where possible and to engage in activities that reuse and recycle. The Environmental elements include:

ENVIRONMENTAL AUTHORIZATIONS AND REPORTING

Suppliers shall comply with all applicable environmental regulations. All required environmental permits, licenses, information registrations and restrictions shall be obtained, and their operational and reporting requirements followed.

WASTE AND EMISSIONS

Suppliers shall have systems in place to support the safe handling, movement, storage, disposal, recycling, reuse, or management of waste, air emissions and wastewater discharges. Any waste, wastewater or emissions with the potential to adversely impact human or environmental health shall be appropriately managed, controlled and treated prior to release into the environment. This includes managing releases of active pharmaceuticals into the environment (PiE).

SPILLS AND RELEASES

Suppliers shall have systems in place to prevent and mitigate accidental spills and releases to the environment and adverse impacts on the local community.

RESOURCE USE

Suppliers shall take measures to improve efficiency and reduce the consumption of resources.

Environment continued

SUSTAINABLE SOURCING AND TRACEABILITY

Suppliers shall carry out due diligence on the source of critical raw materials to promote legal and sustainable sourcing.

SOCIAL AND ECONOMIC RESPONSIBILITY

Suppliers shall foster social and economic development and contribute to the sustainability of the communities in which they operate.

Management Systems

Suppliers shall use management systems to maintain business continuity, facilitate continual improvement and compliance with the expectations of these principles. The Management System elements include:

COMMITMENT AND ACCOUNTABILITY

Suppliers shall demonstrate commitment to the concepts described in this document by allocating appropriate resources and identifying senior responsible personnel.

LEGAL AND CUSTOMER REQUIREMENTS

Suppliers shall identify and comply with applicable laws, regulations, standards and relevant customer requirements including but not limited to applicable sanctions, laws and regulations.

RISK MANAGEMENT

Suppliers shall have mechanisms to determine and manage risks in all areas addressed by these Principles.

DOCUMENTATION

Suppliers shall maintain documentation necessary to demonstrate conformance with these Principles and compliance with applicable regulations.

TRAINING AND COMPETENCY

Suppliers shall have a training program that achieves an appropriate level of knowledge, skills and abilities in management and workers to address the expectations in these Principles.

CONTINUAL IMPROVEMENT

Suppliers are expected to continually improve by setting performance objectives, executing implementation plans and taking necessary corrective actions for deficiencies identified by internal or external assessments, inspections, and management reviews.

IDENTIFICATION OF CONCERNS

All workers shall be encouraged to report concerns, illegal activities or breaches of these Principles in the workplace without threat of or actual reprisal, intimidation or harassment. Suppliers shall investigate and take corrective action if needed.

COMMUNICATION

Suppliers shall have effective systems to communicate these Principles to workers, contractors and suppliers

By following these guidelines, we envision a supply chain that delivers commercial benefits to our customers and suppliers, while meeting our aspirations for sustainability and for creating a supply chain that is inclusive, resilient and transparent.
